UI Screens

Mobile app for children aged 2–12 and the admin dashboard & CMS

19 app screens

14 admin screens

iOS · Android · Web

A CUSTAR product · October 2026

Screens show sample stories and sample data. The app is captured from the web build of the same code that ships to iOS and Android.

Brand, type and components

Built on the four CUSTAR brand colours. Charcoal text is used on teal and amber because white on teal is only 3.2:1.

Colour

Purple

#ab46d2

Primary actions, active tab, selection. White text 4.6:1

Teal

#10a19c

Secondary, progress, success. Charcoal text 4.9:1

Amber

#ffbe00

Highlights: FREE, Title of the Week. Charcoal text 9.4:1

Charcoal

Hi, Ada! What shall we read today?

Popular right now · Most read this month

Ages 5–8 · 4 min. Semi-bold for body, extra-bold for labels, black for titles.

Components

Design principles

- **Thumbnail first.** Covers and pictures carry every screen; text supports them.
- **Safe for children.** No ads, no prices, no purchase buttons. Grown-up areas sit behind a parental gate.
- **Type grows with the reader.** Younger age bands get larger text; every child can change it.
- **Easy to tap.** Controls are at least 44 pt; the whole app works one-handed.
- **Soft and springy.** Rounded shapes, gentle shadows and a light press-in on every tap.

How the app fits together

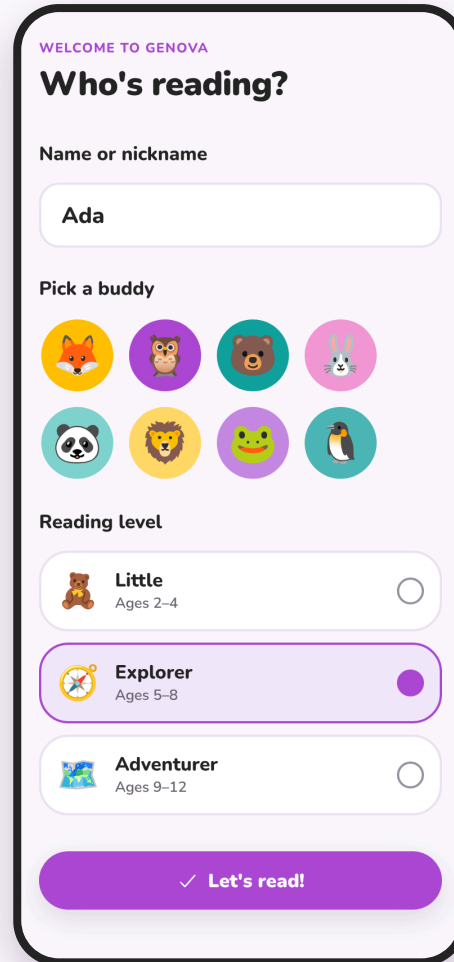

Getting started

First launch to the home screen. No account is needed to start reading.

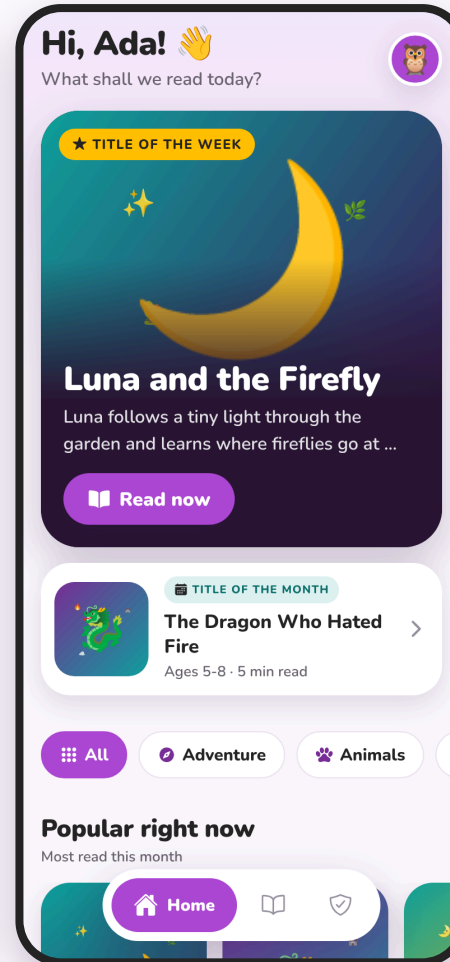

Who's reading?

First launch: a name or nickname, a buddy avatar and a reading level.

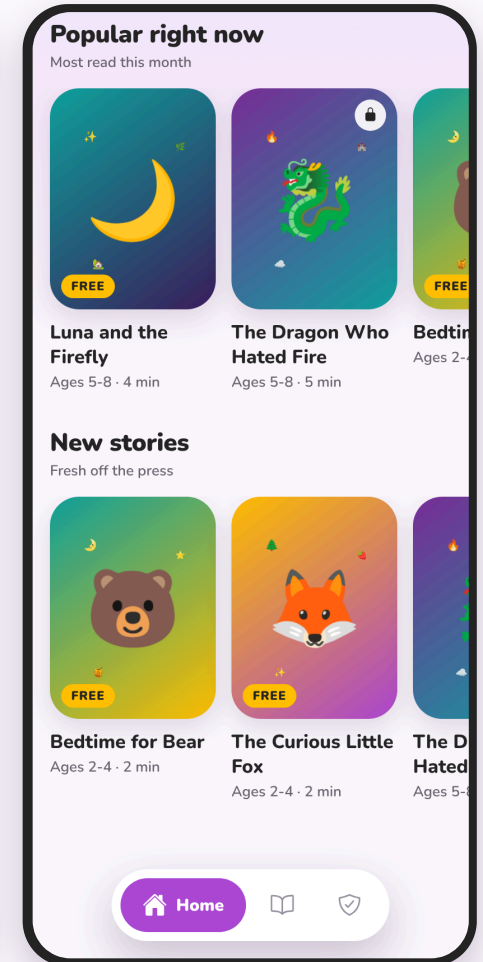

Profile ready

The chosen level is highlighted and the button enables once name and level are set.

Home

Title of the Week hero, Title of the Month and category chips. Covers lead everywhere.

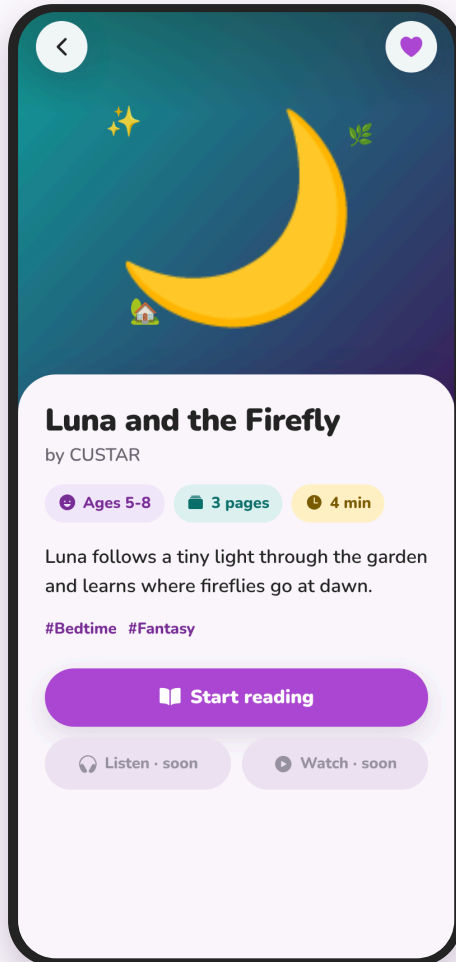

Shelves

Popular right now and New stories. FREE and lock badges sit on the covers.

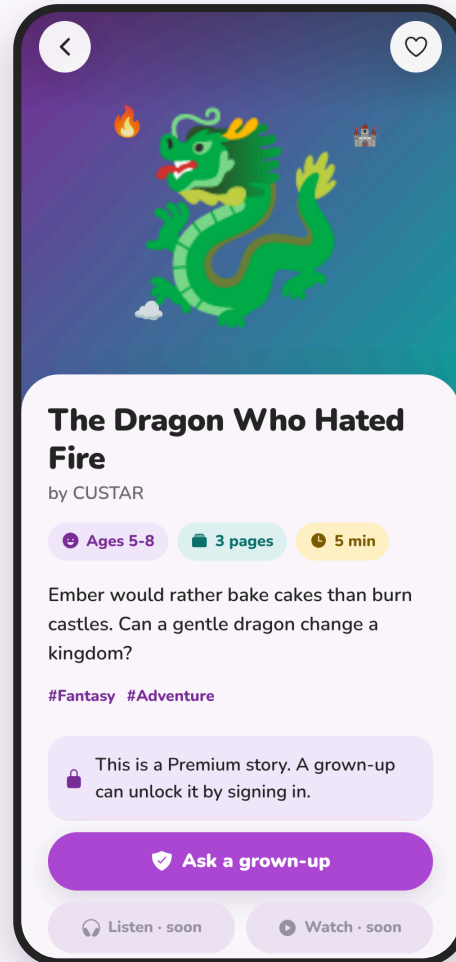

Discover and unlock

Story pages, locked stories and the parental gate that protects grown-up areas.

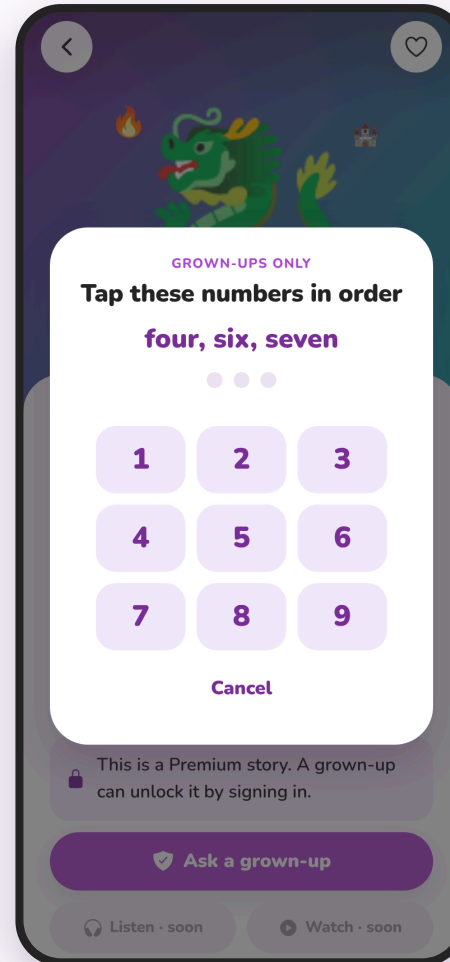

Story detail

Age group, pages, reading time, synopsis and a favourite heart. Listen and Watch are reserved for later phases.

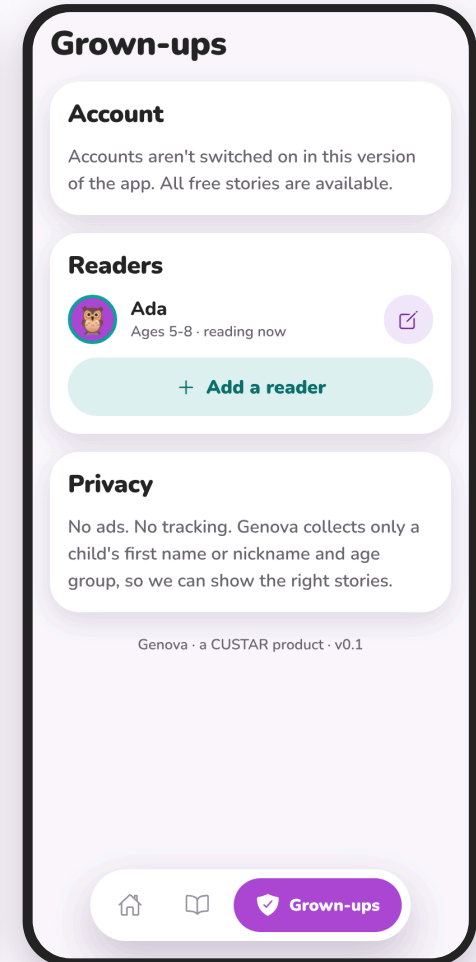

Premium story

Locked stories point children to a grown-up. There are no prices or purchase buttons in the app.

Parental gate

A number-word challenge pre-readers cannot solve. Guards profile switching, settings and web links.

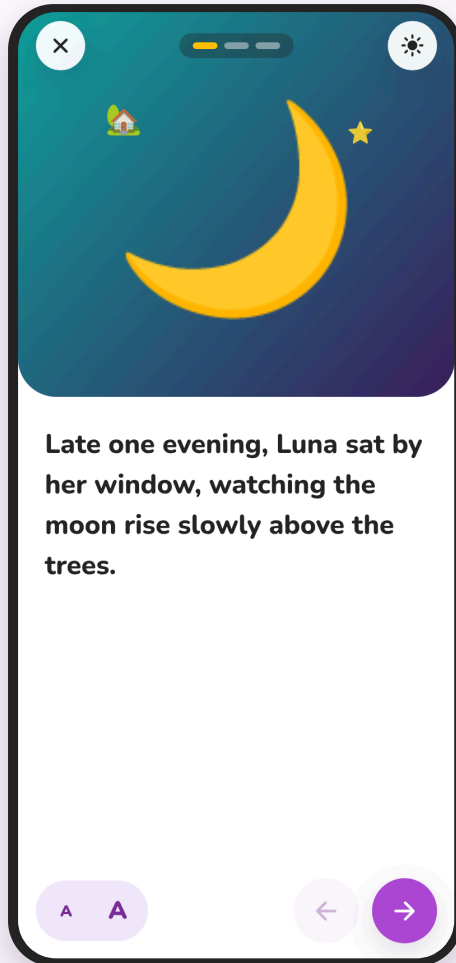

Grown-ups area

Account, readers and privacy. Subscriptions are managed on the website. Shown here in the "not connected" build state.

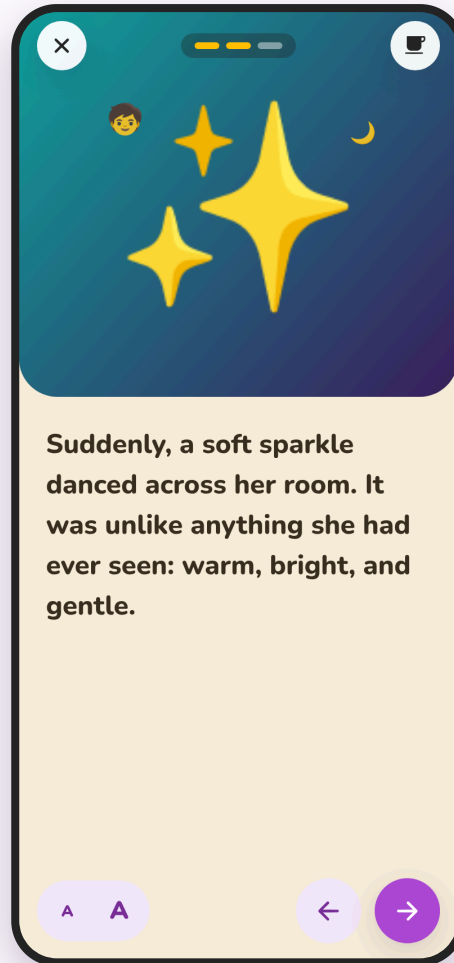

The reader

One picture per page with the text underneath. Type size follows the child's age band.

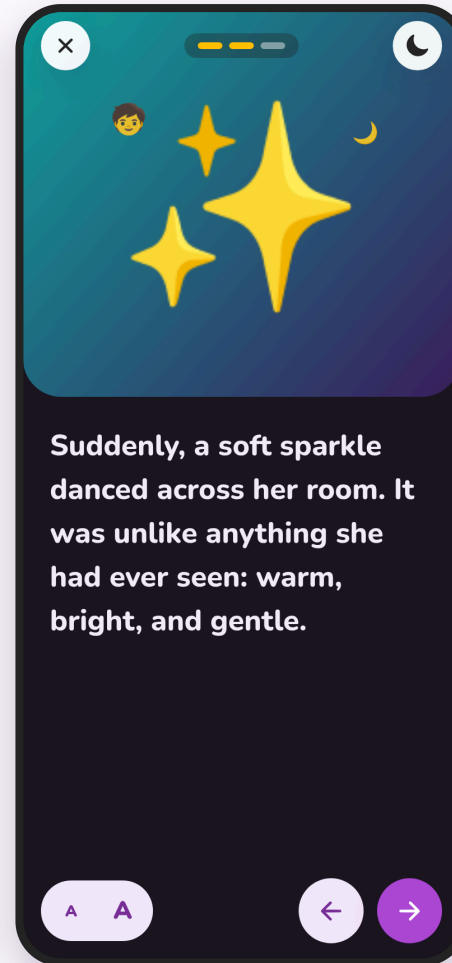

Day theme

Picture on top, text below, progress pills, and big next/back buttons.

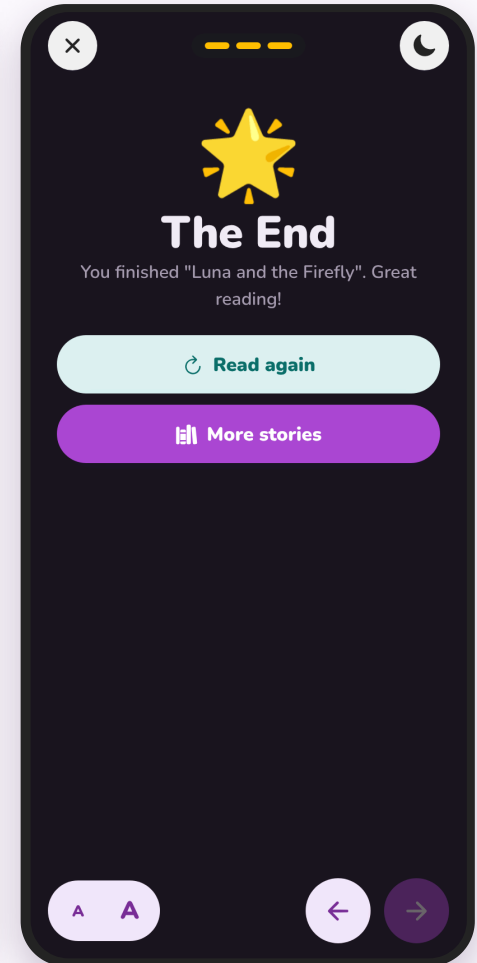

Sepia theme

A warmer page for lamp-lit reading. The theme button cycles day, sepia and night.

Night, larger text

Night theme with the A+ control used once, for bedtime reading.

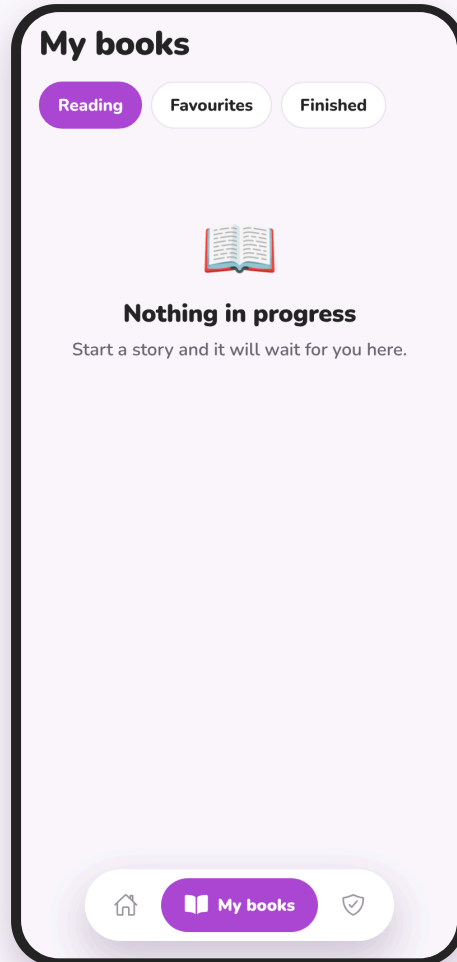

The End

A finish screen: read again, or go back for more stories. Progress is saved as the child reads.

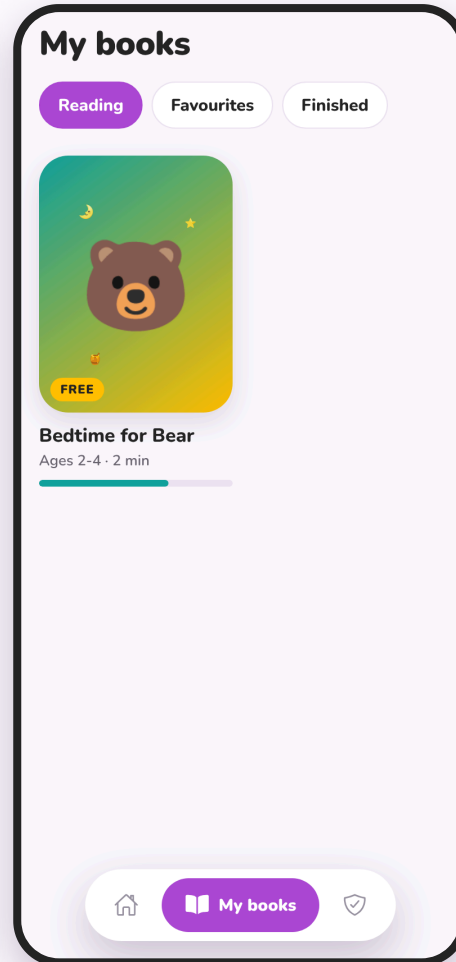

My books

A personal shelf for every reader on the device.

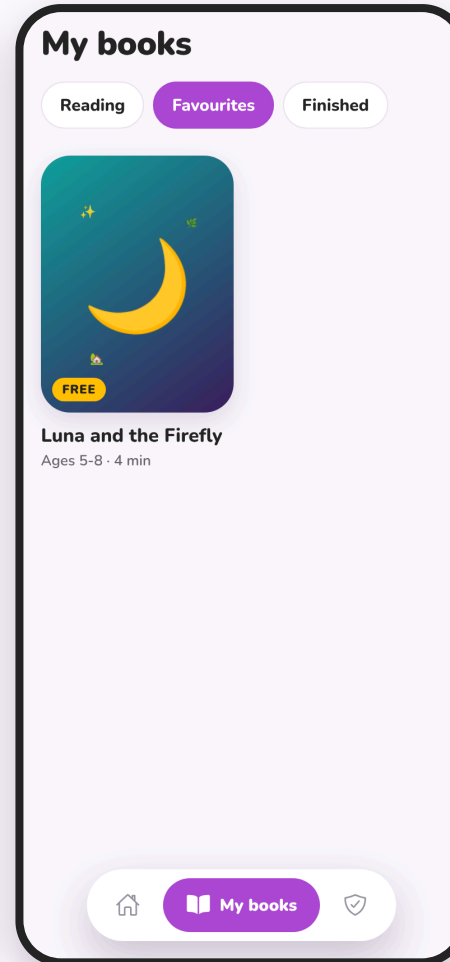

Empty state

Friendly empty states explain what will appear here.

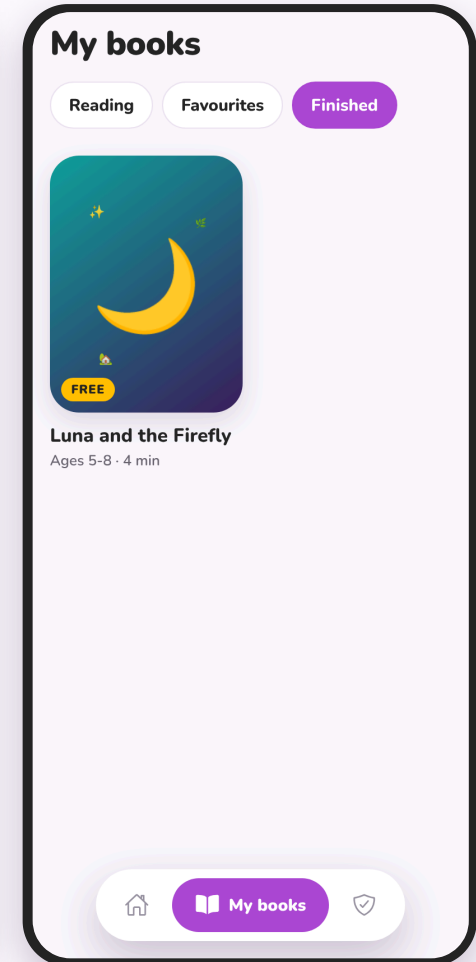

Reading

Stories in progress, with a progress bar under each cover.

Favourites

Everything the child has hearted.

Finished

Stories read to The End.

Readers and accounts

Several children can share one device; parents sign in to unlock Premium.

Stories

Story editor

Edit a live story (left) and build a new one (right): cover and page image upload, drag-to-reorder pages, categories, free or Premium, draft/live/scheduled publishing, a live reader preview and a readiness checklist.

Editing a live story

New story, ready to publish

Publish checklist

The checklist blocks "Live" until the story has a title, synopsis, cover and at least one complete page. Drafts can always be saved.

The screenshot displays the 'New story' form in the Genova Admin Dashboard. The left sidebar contains navigation links: Dashboard, Stories (active), Featured, Categories, Subscribers, and Settings. The main content area is titled 'New story' and includes a 'Draft' button and an 'Unsaved changes' indicator. The form is divided into several sections:

- Details:** Includes fields for Title (Untitled idea), URL name (untitled-idea), and Synopsis (One or two sentences that make a child want to open it.).
- Age group:** Radio buttons for Little · 2-4, Explorer · 5-8 (selected), and Adventurer · 9-12.
- Categories:** Buttons for Adventure, Animals, Bedtime, and Fantasy.
- Author:** A dropdown menu showing CUSTAR.
- Reading time (min):** A text input field showing 3.
- Free to read (otherwise Premium):** A toggle switch.

On the right side, there are three panels:

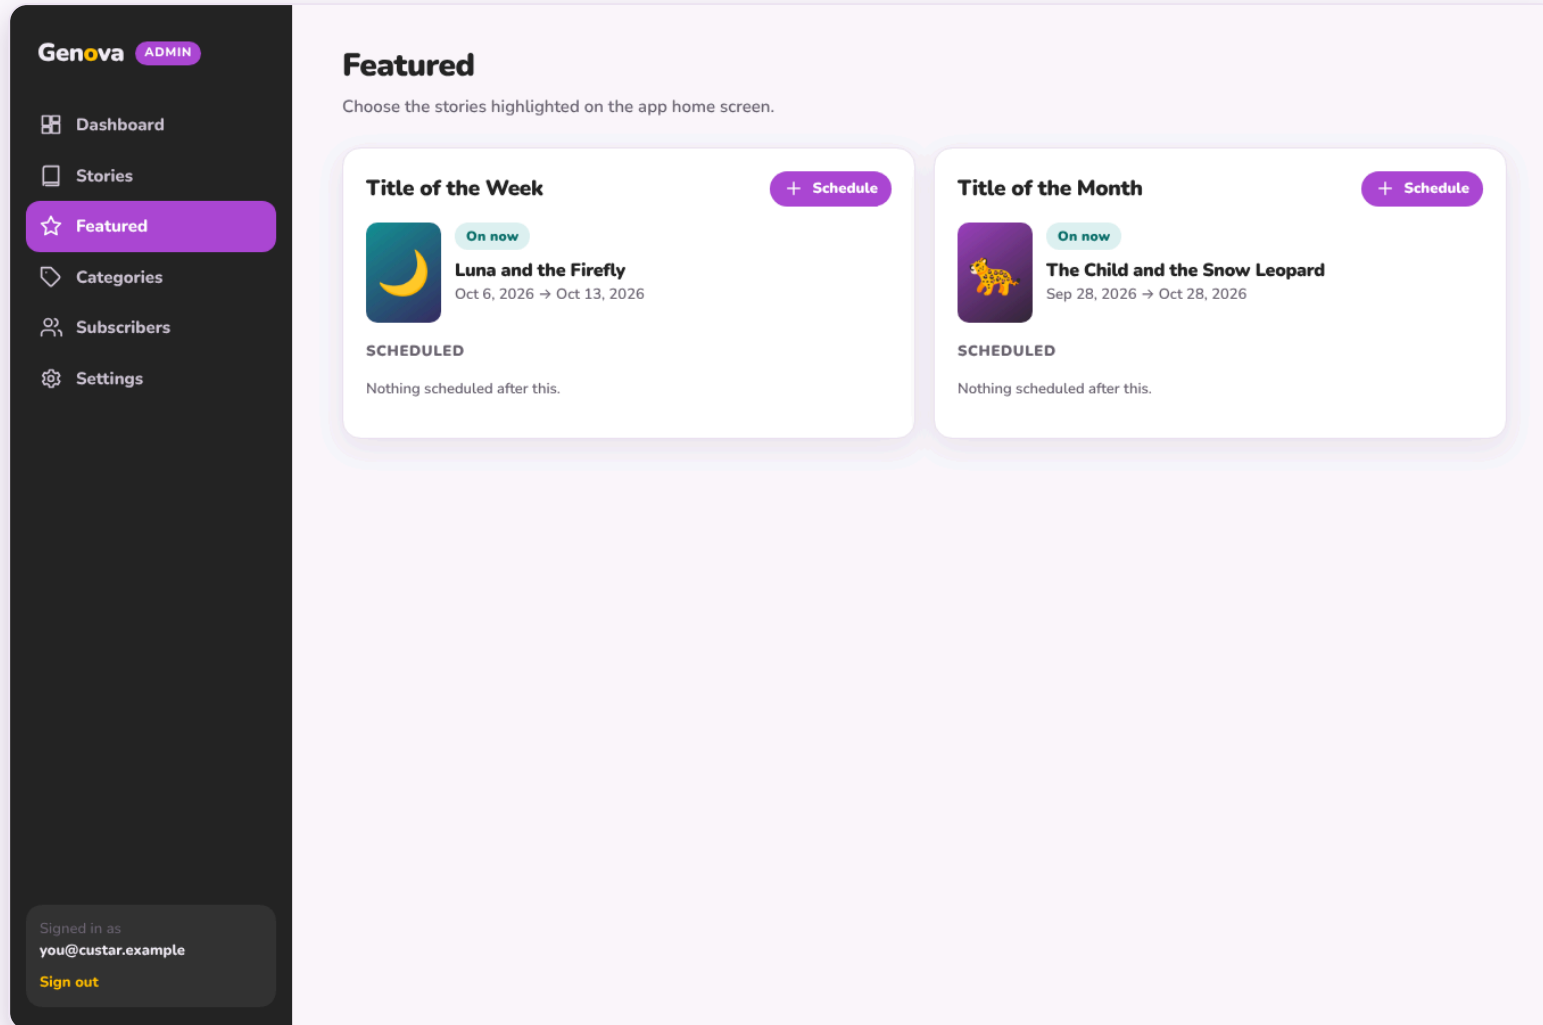

- Publishing:** Includes buttons for Draft, Live (selected), and Schedule. A note states: 'Visible in the app as soon as you save.'
- Checklist:** A list of items to be completed before saving as live: Title (checked), URL name (checked), Synopsis (unchecked), Cover image (unchecked), At least one page (unchecked), and Every page has an image and text (unchecked). A red note at the bottom says: 'Finish these before saving as live.'
- In the app:** Shows a preview of the story cover with the title 'Untitled idea' and the age group 'Ages 5-8 · 3 min'. A 'Premium' badge is visible.

A black tooltip with white text is positioned over the 'Free to read' toggle, stating: 'Before saving: synopsis, cover image, at least one page, every page has an image and text.'

Checklist blocks an incomplete story

Featured

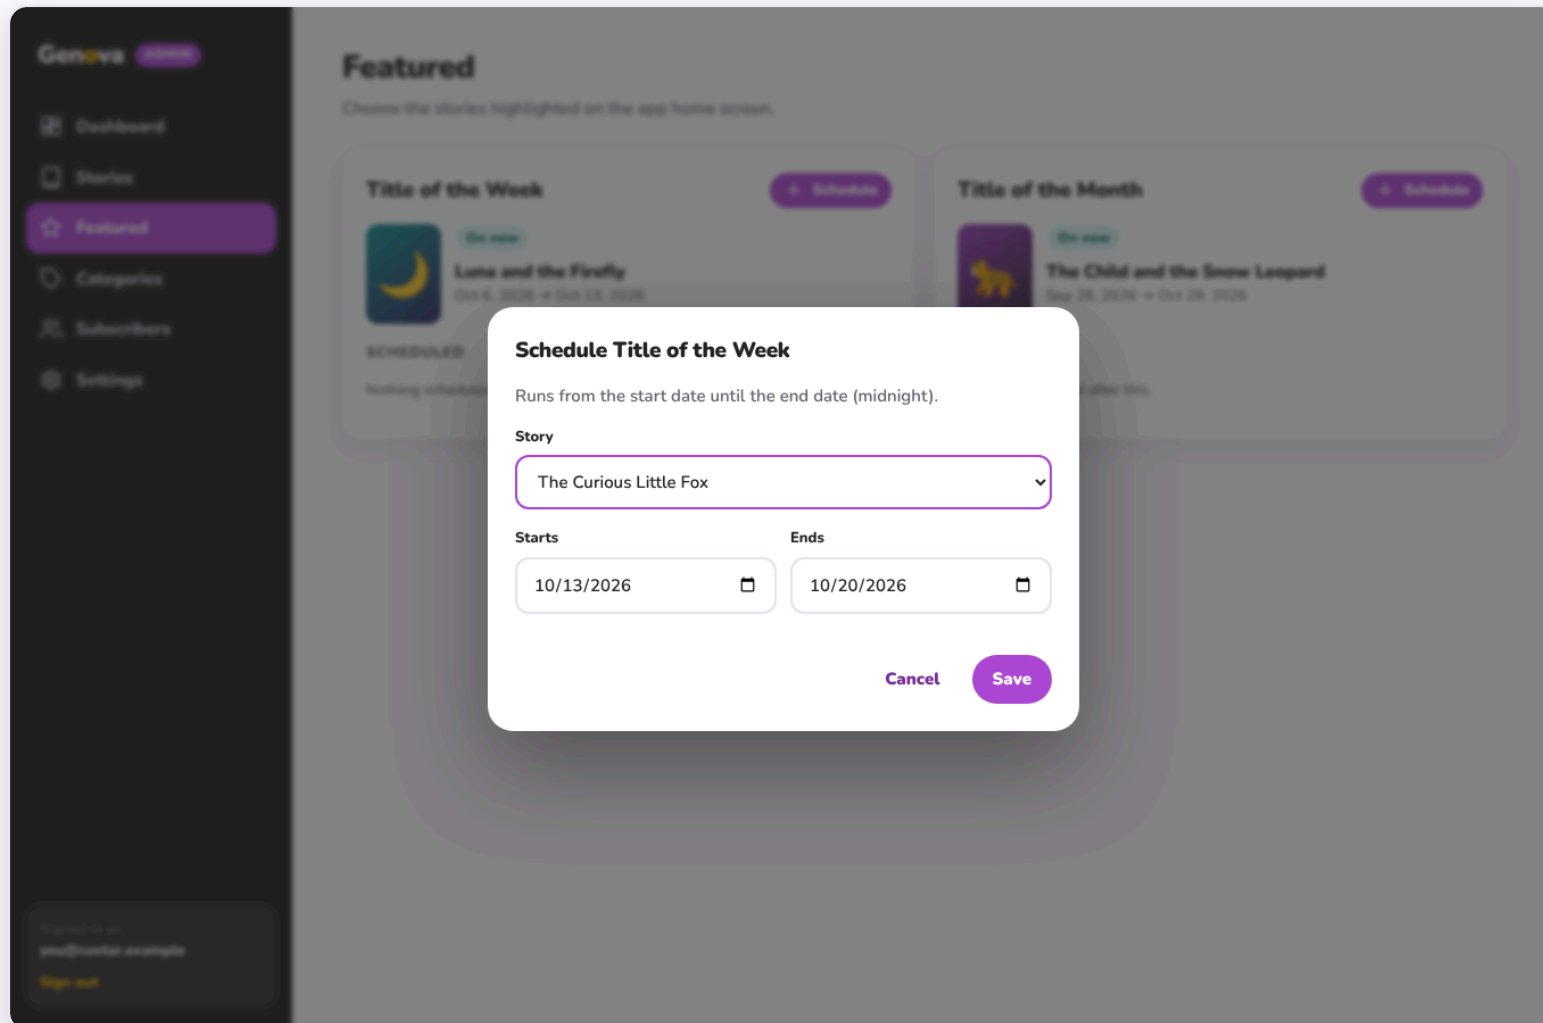

Title of the Week and Title of the Month, with what is on now and what is scheduled next.

Featured slots

Schedule a featured story

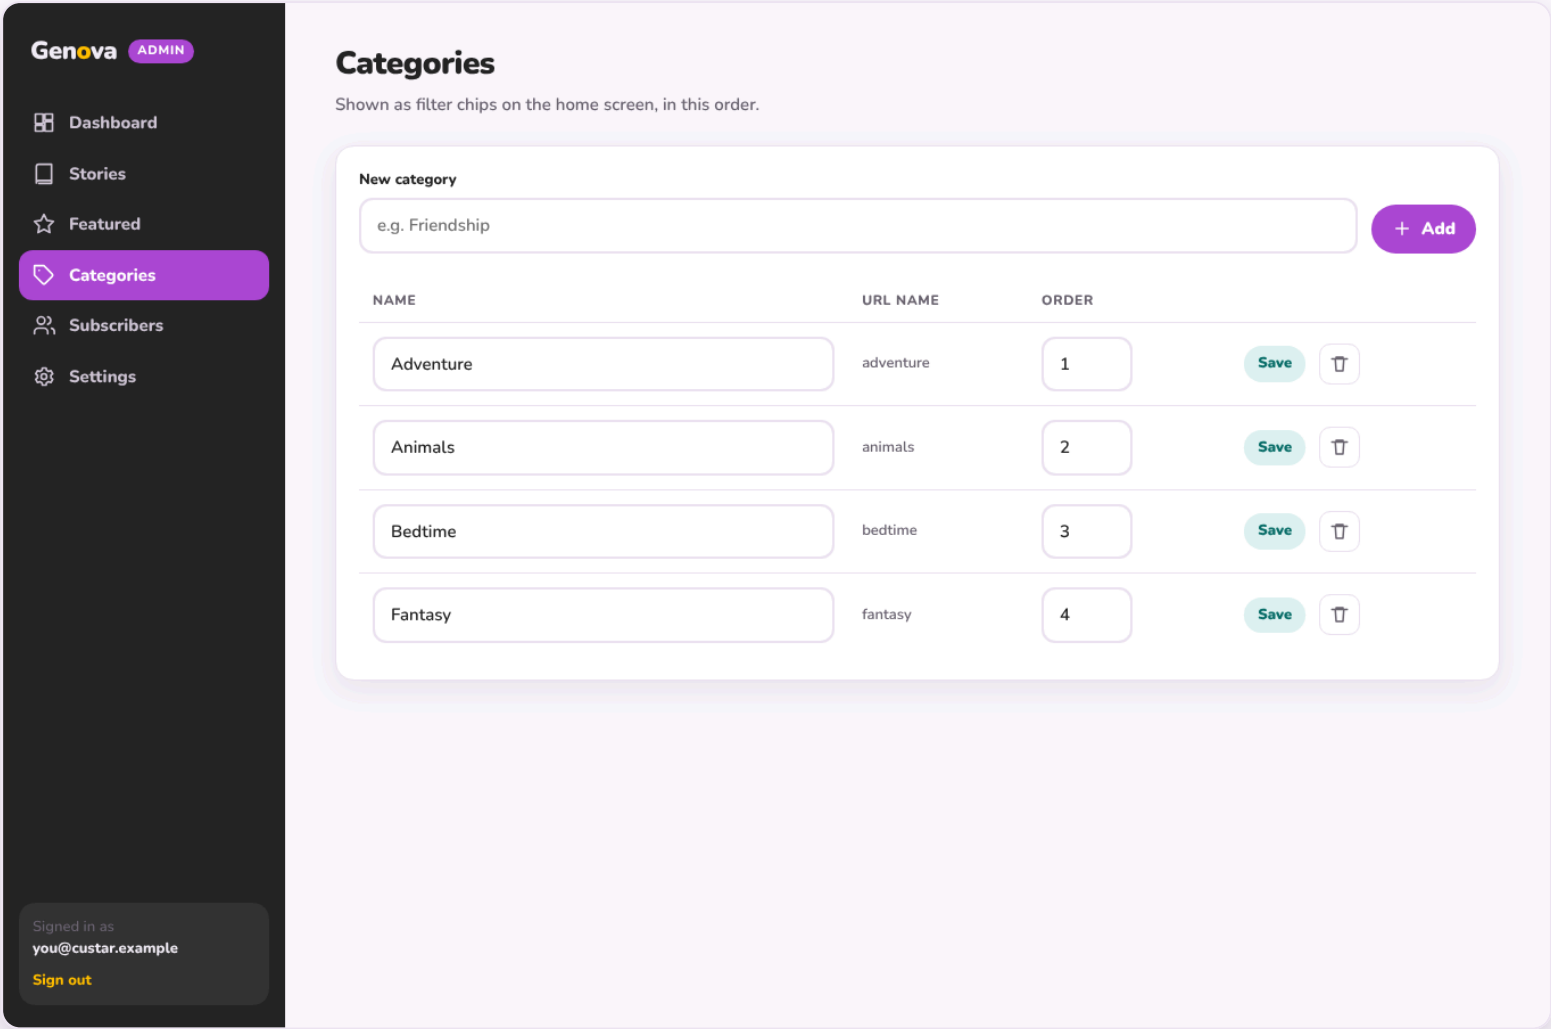

Pick a live or scheduled story and a date range. The database rejects overlapping slots of the same kind, so the home screen always has one clear winner.

Schedule a featured story

Categories

Rename, reorder, add and delete the category chips shown on the app home screen.

Categories

Subscribers

Search parents and see their plan, access status and renewal date. Payments are handled on the web with Payscale.

Subscribers

Manage access

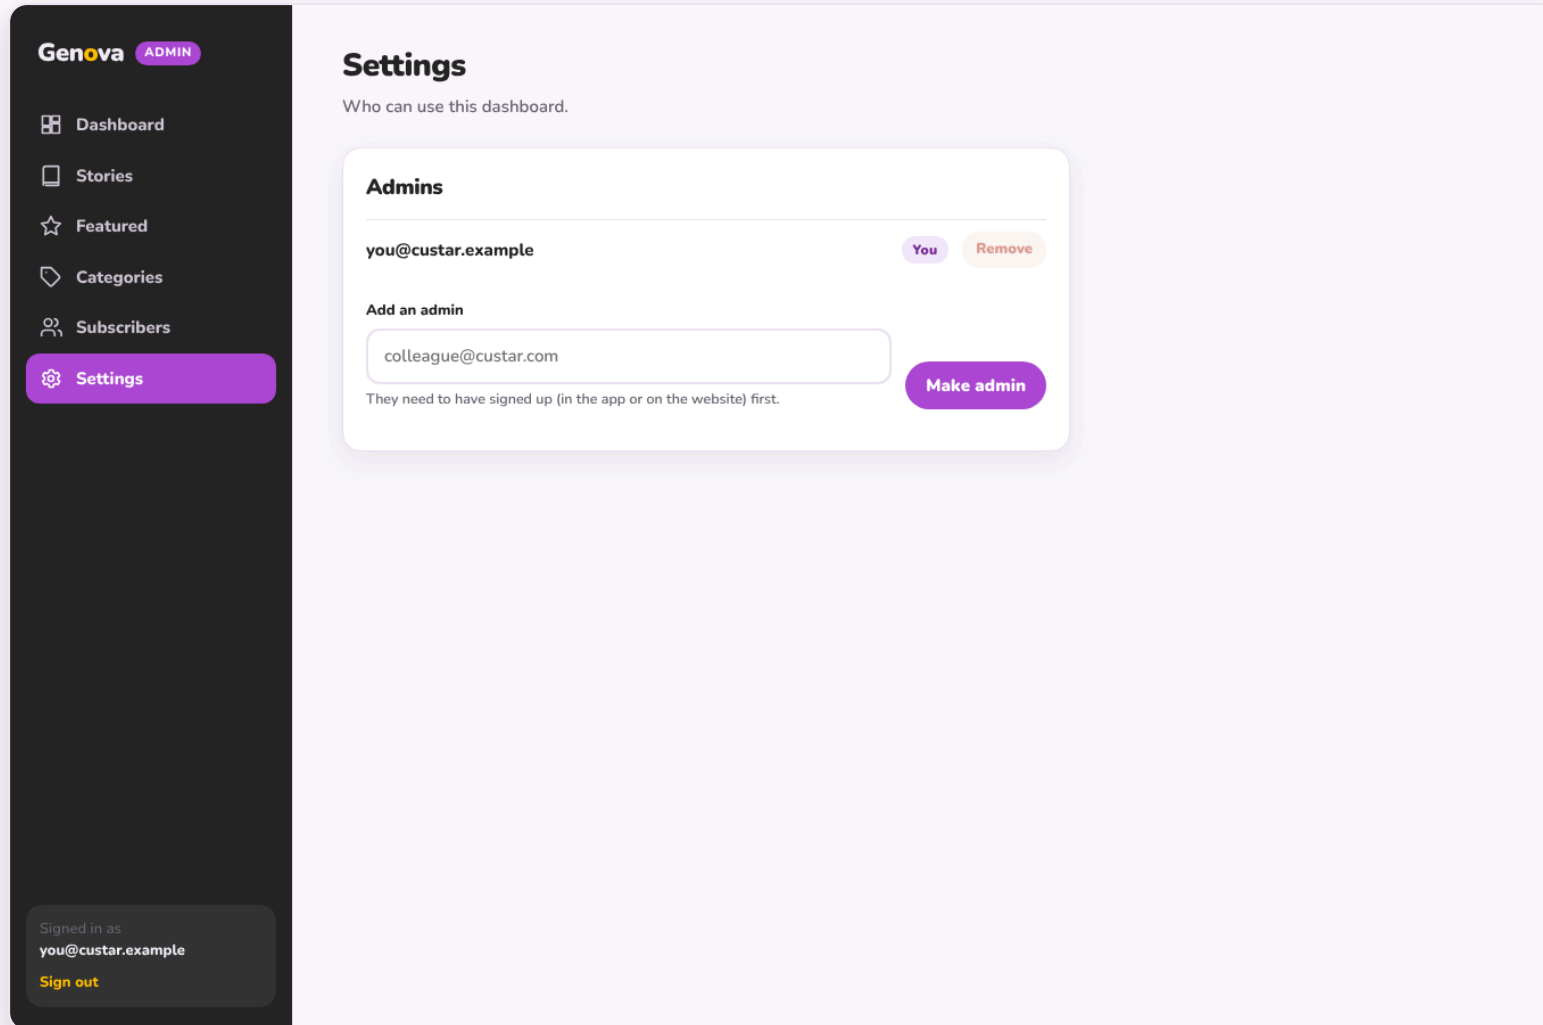

Grant complimentary access to app-store reviewers and partners, with an end date. A later Paystack event overrides it.

Manage subscriber access

Settings

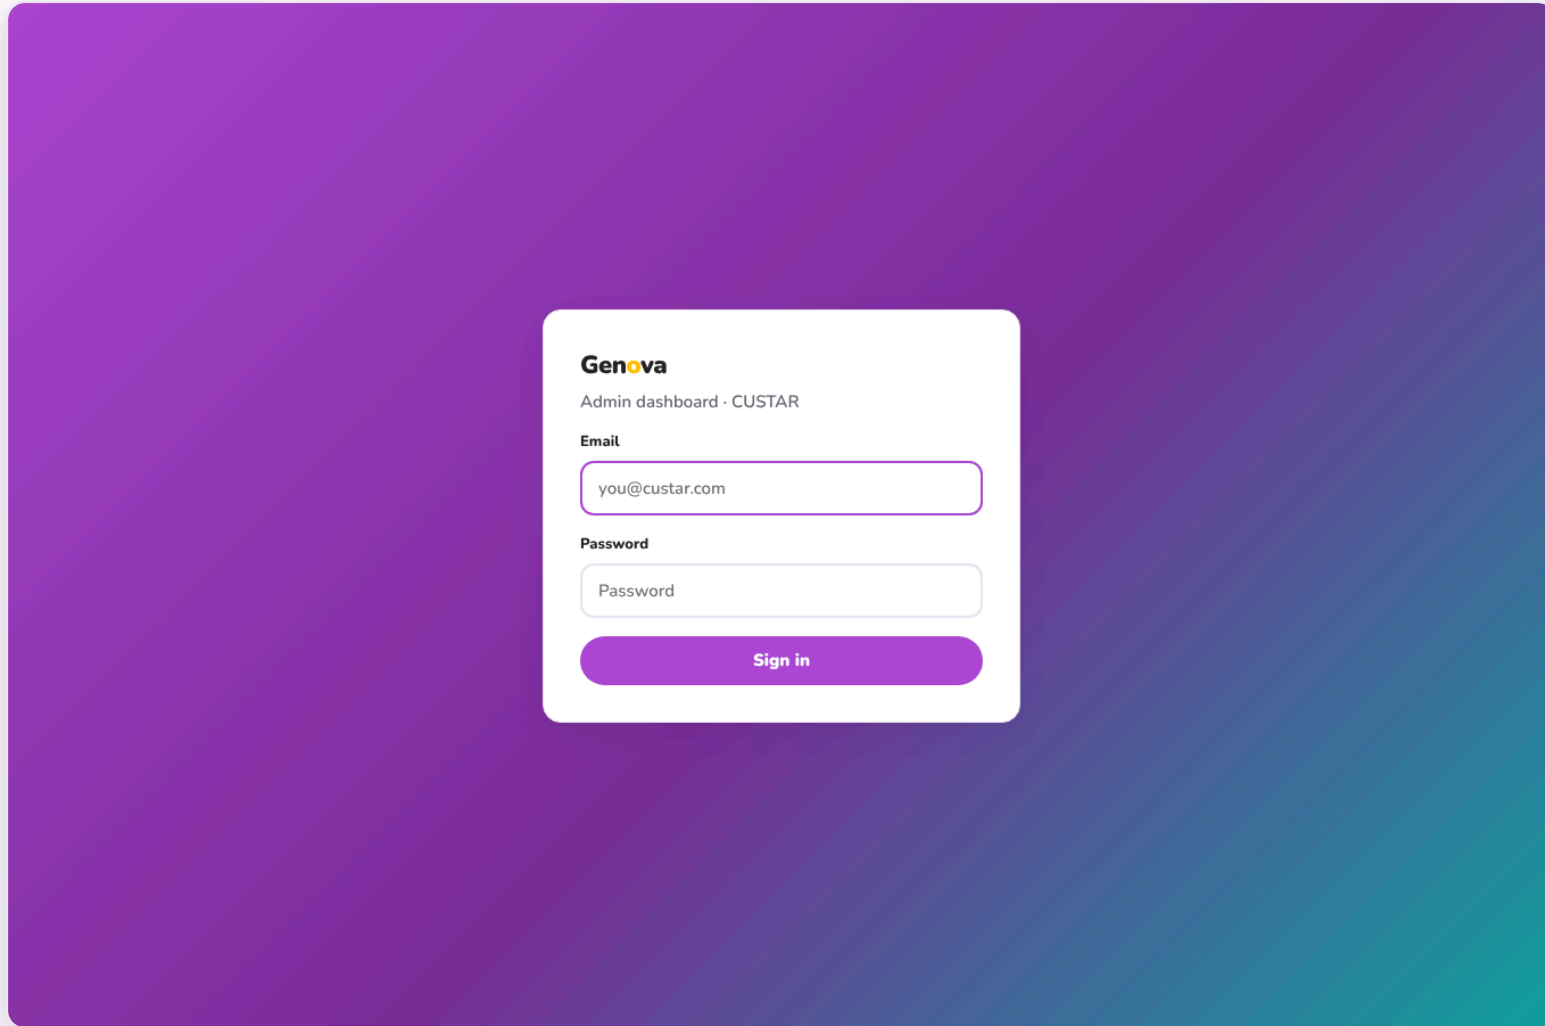

Who can use the dashboard. Admins can add colleagues who already have an account; the last admin can never be removed.

Settings: admins

Admin sign in

Admin-only access. Signed-in accounts that are not admins see a clear "No admin access" message.

A screenshot of an admin sign-in interface. The background is a large rectangle with a purple-to-teal gradient. In the center is a white rounded rectangle containing the sign-in form. The form has the Genova logo at the top, followed by the text 'Admin dashboard - CUSTAR'. Below this are two input fields: 'Email' with the placeholder 'you@custar.com' and 'Password' with the placeholder 'Password'. At the bottom of the form is a purple rounded button with the text 'Sign in' in white.
